## Artist Statement

As an artist growing up in the hills of Montana, I was able to see the beauty of this spiritual land. After high school I took to the range, much like Charlie Russell did in the 1800's and started fulfilling a dream as a cow-boy. Living close to my father who is an artist, I was inspired by the expression and passion that he created in his paintings and writings. My experiences in nature and the interactions with others and myself, fuels my creations. I am honest with myself and am continuously inspired by life.

— Ira Immanuel Cuelho
